

Kære underviser.

Her er opgaver, hvor børnene skal sætte streg mellem billeder af noget og det tilsvarende ord. De kan nøjes med at lytte efter forlyden, eller lytte efter flere lyde (læse ordet).

Man kan sige at det er opgaver, der begynder træning i afkodning. Børnene får følelsen af at de læser eller starter med at læse et ord.

I de første opgaver er der kun en ting afbilledet, i de senere opgaver er der afbilledet 3 ting og tre ord.
